Printer: Thermal inkjet -HP 2.5 Technology **Style:** 42ml Cartridge **Ink Type:** Solvent

Part No: 800 Heatless

Ink Type: Solvent

Colour: Black

Shelve life: > 9 months

Decap time: > 60 min

Application details:

- “ Fast dry ink for semi porous and non-porous substrates.
- “ High density print and excellent crisp print.
- “ Excellent adhesion for various package films, PE, PET, PP and coated blister foils.
 - “ Water proof.
 - “ Excellent light fastness.

Part No: 800 plus Heatless (Darker black than 800)

Ink Type: Solvent

Colour: Black

Shelve life: > 9 months

Decap time: > 60 min

Applications details:

- “ Fast dry ink for semi porous and non-porous substrates.
- “ High density print and excellent crisp print.
- “ Excellent adhesion for various package films, PE, PET, PP and coated blister foils.
 - “ Water proof.
 - “ Excellent light fastness.

Part No: 990 Heatless

Ink Type: Solvent

Colour: Black

Shelve life: > 9 months

Decap time: > 60 min

Application details:

- “ Fast dry ink for semi porous and non-porous substrates.
- “ High density print and excellent crisp print.
- “ Suitable for various package films, PE, PET, PP and coated blister foils.
 - “ Water proof
 - “ Excellent light fastness.

Part No: 797 -Heatless

Ink Type: Solvent

Colour: Black

Shelve life: > 9 months

Decap time: > 60 min

Application details:

- “ Fast dry ink for semi porous and non-porous substrates.
- “ High density print and excellent crisp print.
- “ Excellent adhesion for various package films, PE, PET, PP and coated blister foils.
 - “ Water proof.
 - “ Excellent light fastness.

Part No: 314-S (White)

Printer: HP 2.5 Technology

Ink Type: Solvent

Colour: White

Shelve life: > 6 months

Decap time: > 20 min

Application details:

- “ Fast dry ink for semi porous and non-porous substrates.
- “ High Whiteness print, excellent crisp print.
- “ Suitable for various package films, PE, PET, PP and coated blister foils.

Part No: 324-S (Yellow)

Ink Type: Solvent

Colour: Yellow

Shelve life: > 6 months

Decap time: > 20 min

Application details:

- “ Fast dry ink for semi porous and non-porous substrates.
- “ High Whiteness print, excellent crisp print.
- “ Suitable for various package films, PE, PET, PP and coated blister foils.
